Html code output screen:

The screenshot shows a web browser window with a purple header bar. The address bar displays the file path "C:/Users/ARJ/Desktop/udhaya.html". The page content is a registration form titled "Registration Form" in bold black text. The form is set against a light blue background and contains several input fields with light gray placeholder text: "Firstname", "Lastname", "Phone : +91", "city:", "Email", and "Password". A green "Register" button is positioned at the bottom of the form. In the bottom right corner of the browser window, there is a watermark that reads "Activate Windows Go to Settings to activate Windows."
