<label> City: </label>
<input type="text" name="City" placeholder= "" size="15" required />
<label> State: </label>
<input type="text" name="State" placeholder="" size="15" required />
<label> Country: </label>
<input type="text" name="Country" placeholder="" size="15"required/>
<div>
<label>
<button onclick="myFunction()"><center>Submit</center></button> <p id="demo"></p>
<script> function myFunction() { let text = " Data saved"; if (confirm(text) == true) { text = "
please Wait for Response"; } else { text = "Cancelled"; }
document.getElementById("demo").innerHTML = text; } </script>
</body>
</head>
</html>
```

INPUT IN VISUAL STUDIO CODE:

Output from VS code:

The image displays two screenshots of a web browser showing a "User Registration Form".

Top Screenshot: The browser window shows the file path `C:\Users\anj\Desktop\Index.html`. The form has a light blue background with the title "User Registration Form" centered at the top. Below the title, there are labels for "Name:", "Email:", "Mobile:", "City:", "State:", and "Country:", each followed by a white input field.

Bottom Screenshot: This screenshot shows the same form but with the input fields filled with placeholder text. The "Name" field contains "John Doe", "Email" contains "john.doe@example.com", "Mobile" contains "9876543210", "City" contains "New York", "State" contains "New York", and "Country" contains "USA". At the bottom left of the form, there is a "Submit" button.
